Subject: City of Amarillo OEM / Industrial Waste / Health
Date: Wednesday, January 4, 2017 11:28:07 AM

Amarillo / Potter / Randall Office of Emergency Management is run by the City of Amarillo and has an interjurisdictional agreement with Potter and Randall Counties.

Industrial waste handles the packaging and storage of hazardous materials after being contained by Amarillo Fire Department. There is a storage unit at the City of Amarillo Service Center where it is stored. Industrial Waste then uses a contractor (currently Stericycle) to pick up hazardous waste for disposal. The storage facility can only hold waste for 180 days. They are a small quantity generator.

Additionally, it might be useful to explain our Public Health Jurisdiction. The public health entities (Public Health, Environmental Health, WIC) work under the authority of a cooperative agreement between the City of Amarillo, City of Canyon, Potter and Randall Counties to form the Bi-City-County Health District.

Please let me know if you have any questions concerning this.
